

BETA GAMMA CHAPTER CRESCENT ALPHA GAMMA RHO

SPRING 1993

UNIVERSITY OF WISCONSIN-PLATTEVILLE

NO. 61

PROPOSED RESTRUCTURING PLAN FOR THE COLLEGE OF AGRICULTURE

At the present time, the College of Agriculture. is in the finalization stage of restructuring. The big question asked is, "WHY." It all started in 1990 when the State Board of Regents decided that there was too much replication in the four Ag. Colleges in the state, which include UW-Platteville, UW-River Falls, UW-Madison, and UW-Stevens Point. The board stated that Wisconsin did not have enough money to keep the programs going at a high quality. At that time, the board told each school that they must look at their programs to see where their resources could be reallocated. Each College performed extensive study of their programs. Last March, the board sent a group of experts from a variety of other states to spend a day at each school to give suggestions. The biggest concern of all schools, was that resources and faculty were being over extended to meet the needs of the college and students. If we were to continue, we would not be able to uphold the same quality of education as we currently have.

Here is what UW-Platteville College of Agriculture has proposed:

The primary objective is to maintain a high quality College of Agriculture at UW-P. Planning Assumptions include a temporarily decrease in the enrollment while restructuring is being implemented. There will be a reduction of the number of majors to a maximum of five. At least two FTE faculty positions will be identified for reallocation. Finally, the complete plan will require four to five years to implement. The reduction of majors will begin with the students who enroll in the fall of 1994. Students enrolled in majors to be terminated will be able to complete those majors.

The UW-P College of Ag. committee met several times and after extensive discussion proposed the following:

Majors to continue:
Agri. Business
Ag. Education
Animal Science
Soil and Crop Science
Reclamation

Majors to be terminated:
Ag. Economics
Ag. Engineering Technology
Technical Agriculture

Minors to continue:
Agribusiness
Animal Science

Minors to be terminated:
Ag. Economics
Ag. Engineering Technology

Crops and Soils
Horticulture

Technical Agriculture

Other Programs to be continued:

Biotechnology Minor- jointly listed with College of Arts and Sciences.

Pre-Vet- jointly listed with College of Arts and Sciences
Masters in Agriculture Industries.

Other Issues:

The Pioneer Prairie Farm will be used more extensively. The goal is to incorporate more farm use into the classes. The farm will become a center for demonstration purposes that relate to teaching and research activities. Applied research opportunities for faculty and undergraduate research opportunities for students will be a part of the farm mission.

The core courses in our college agricultural curriculum will be reviewed in light of the college's greater focus. One topic to be discussed by the faculty is the possible requirement of an interdisciplinary senior-level capstone course. This is a class that takes in all that a student has learned in a variety of subjects, and applies these skills to real-life situations.

The combined efforts will develop an excellent and effective college that provides quality students with a high quality education in agriculture. Any questions of concerns, contact Dean Lindahl, College of Agriculture Dean.

Wayne DeBuhr

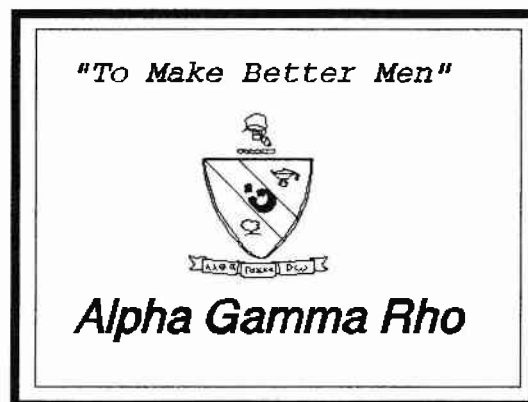

Brotherhood Program Changes

During elections last Fall, I stated that I wanted to use many of the traditions and activities from the former pledge program in the new Brotherhood Program. Some of the activities I plan to do are sleep overs at the house and at 880 Union, a skip-out, movie nights, roller skating/date night, scavenger hunts, and interview parties. Strongly stressed are big brother+sister/little brother activities: such as taking the little brother out to eat. The major program that I hope will work well is the AGR/CERES member exchange. The exchange for our initiates is totally voluntary with a ten member limit. First priority for participation in the exchange will be given to the new initiates. If there are less than ten people and there is interest from the older members, they will also be able to participate in the exchange. If older members participate, first priority will be given to the graduating seniors and so on down through the class ranks. During the exchange, our initiates will become CERES members for a day while the CERES pledges become AGR members for a day. I hope that these activities will strengthen the bond between the members of Beta Gamma Chapter and encourage greater campus interest in joining the ranks of actives and alumni in the bond of Alpha Gamma Rho.

Fraternally,
Thomas M. Brooks

ADVISOR COMMENTS

Dear Brothers:

I'd like to take this opportunity to make a few comments about the status of Alpha Gamma Rho/Beta Gamma Chapter to our alumni. We have a new officer group that is getting organized and I feel doing quite well. In addition, to the normal "start up problems" of a new officer group, we find ourselves in a unique situation where recent graduations have decreased the number of people living in the house and subsequently created a problem with the cash flow. I feel this problem will be self-correcting once we get through this Spring semester, however it does force the Active membership to become more creative and innovative in the way that they conduct their business. I'm very proud of our membership in the way that they have responded to these problems.

I am very pleased with the way the Brotherhood program is beginning this semester. I anticipate an excellent group of new members will be brought in, which will help our overall membership. Based on the functions that they have had so far this semester and the number of potential members that are presently being talked to, I think a large increase is very realistic.

I would like to remind everyone of our Alumni Banquet on March 27th. Exact details are found elsewhere in this Crescent, as to the time and planned activities. We are having this at the Platteville Golf and Country Club this year, which is a change from the University. The facilities available will be very nice and an excellent program is planned.

In summary, I'm extremely pleased with the progress that our Active Chapter is making. I admire their ability to work together and overcome some of the difficulties that are in front of them. I would like to encourage each of you to please try to attend the annual banquet and the business meeting, held that day.

If I can ever answer any of your questions or you have and comments and criticisms that you think I could benefit from, please feel free to contact me at anytime.

Thank you very much.

Fraternally,
Michael A. Myers

Noble Ruler

Greetings to my fellow Beta Gamma Brothers! Allow me to introduce myself. My name is Dean Strauss, the newly elected Noble Ruler for 1993. I am a junior from Sheboygan Falls, Wisconsin majoring in Animal Science, with a Dairy Science emphasis. The spring semester already has a month gone and many activities are under way. We've already had our annual spring retreat which resulted in many important issues and goals being expressed, which helped result in a more positive outlook. Also, several prospective initiates have shown interest this semester and this looks to be a very excellent group of guys. In addition, I look forward to working with my fellow officers and their guidance on certain issues.

Some of our upcoming events include a Leadership Seminar in Kansas City on February 19-21. Also, the Alumni banquet is set for March 27, in Platteville at the Country Club so make plans to attend now. I look forward seeing many of you there.

Fraternally Submitted,
Dean Strauss
Noble Ruler

VNR-Recruitment

Greetings fellow brothers! This spring Recruitment has a very big task a head of it, since six brothers graduated this fall and only 17 guys are living in the house this semester. The first three weeks have gone quite well. Our first initiation ~~for the~~ spring semester will take place on Feb. 15; however the new Brotherhood program allows us to initiate throughout the whole semester. Hopefully through aggressive Rush activities during the semester, we will be able to increase our membership numbers. If you know of any students from your area that will be attending UW-Platteville and feel that they would make a good brother, please feel free to contact me at the house. Thanks.

Fraternally,
Bill Uecker
VNR-Recruitment

VNR-MEMBERSHIP

Greetings fellow brothers and Alumni!

The Spring semester is really getting underway and so are our activities. I am proud as well as challenged to have been elected to serve as the VNR-Membership Development for the next year. I feel that the Brotherhood Program can be tailored to fit every chapters personal needs and will try to format the program to fit the needs of Beta Gamma chapter. I also am trying to add to our version of the Brotherhood Program the traditions from the past pledge program. I hope that the changes I am trying to make will be successful through intense brotherhood and expanded membership in Beta Gamma chapter.

Fraternally,
Thomas M. Brooks
VNR-Membership Development

VNR-ALUMNI RELATIONS

Hello fellow brothers!

The new directory should be out shortly if it hasn't gotten there already. Make sure you send your address changes in, I have been getting a lot of mailings back because of change of addresses or no forwarding address. The Alumni Banquet should be fun this year since I plan to incorporate the old pledge banquet activities into it. Please send back your reservations early so I can know who will be there and can add you to the festivities.

Fraternally,
Brad Herbrand
VNR-Alumni Relations

VNR-FINANCE

Greeting Alumni:

My name is Mike Grulke. I am serving as the current VNR-Finance at Beta Gamma. This semester has created quite a financial challenge for the active chapter. We only have 17 men living in the house this semester and we are operating below our financial capacity. Due to these conditions, the finance department had to make cuts. One of our plans was to cut the consumption of processed foods. We also made cuts in some of our miscellaneous and social expenditures. Finally, we decided, in good faith, to reduce the hours of the house cook. We cut her hours to 3 hours per day basically to cook evening dinner. These proposed cuts, along with a budget was presented at our annual retreat and also brought before the alumni board. I am certain that with the cooperation of the alumni and the active chapter we can overcome this financial rut.

Fraternally,
Mike Grulke
VNR-Finance

VNR-OPERATIONS

Hello Fellow AGR's!

My name is Roy Anding, and I am a Sophomore majoring in Agriculture Engineering Technology. My family owns and operates a beef/cash crop farm in Arena, WI. I have many hobbies which include hunting, watching sports, and auto-mechanics.

As the new VNR Operations officer I have many plans. During winter retreat many house improvement ideas were discussed. I hope to see these improvements completed during my term as officer.

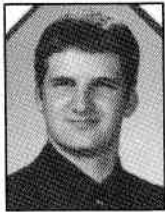

Roy Anding
VNR Operations

VNR-PROVISIONS

Hello all!! I am Bob Cooper, the person now in charge of VNR-Provisions. I am being assisted this term by Randy Simonson. The first major task of this year is replacing Pat Morpew, the cook, who retired after a part-time schedule was enacted because of the current financial situation. Also, some of our suppliers were eliminated. The commissary committee is doing everything possible to reduce cost and eliminated waste. Considering the current circumstances, the commissary effort is going quite well.

Fraternally,
Bob Cooper
VNR-Provisions

VNR-PLANNING

Greetings Brothers!

I have recently become the new VNR-Planning officer. I was born and raised on a small dairy farm between Cazenovia and Lime Ridge, Wisconsin. I graduated from Weston High School in 1990. I am Junior majoring in AET and Ag. Business. I look forward to serving Alpha Gamma Rho as a member of its new officer team.

Ryan Rockweiler
VNR-Planning

VNR-ACTIVITIES

Greetings fellow Brothers and Rho-Mates! My name is Craig Keller and I am the newly elected Vice Noble Ruler of Activities. I am a senior from Mount Horeb, WI, majoring in Agricultural Business with a minor in Animal Science and am a member of the Alpha Upsilon pledge class.

The spring semester marks the return of our traditional intramural sports teams of broomball and basketball. Other activities planned for the semester include a College of Agriculture ski trip, a trip to a Badger Hockey Game, movie nights, date night, and interaction with other Greeks on campus.

If anybody has any more ideas for activities I am always open to suggestion and hope to see you all at Alumni Banquet on March 27.

Fraternally,
Craig Keller
VNR-Activities

VNR-SCHOLARSHIP

Greetings fellow brothers,

Hello, my name is Randy Simonson and I am the new VNR-Scholarship for this year. I am a member of the Alpha Psi pledge class and also the assistant pledge educator this semester. This year I want to get our grades to be the best of any fraternity on campus. I hope to accomplish this by urging our members to help each other in classes and to set up hours for the computers to be used for only class work. I also want to provide incentives for people to get better grades so that our overall grade point will rise.

Fraternally,
Randall Simonson
VNR-Scholarship

NEW MEMBERS

HELLO, my name is Matthew Robert McCourt. I am a new initiate for the the fall of 1992. My major is Agribusiness with an emphasis in farm management. I grew up on a farm that is about three miles north of the city of Fond du Lac. My father had dairy cattle until the fall of 1991 when I began my college career here at Platteville. The cows were then sold and the farm is a cash crop operation now. My mother is a registered nurse. I have five brothers and four sisters. My family covers the map Connecticut to Denver Colorado to Minneapolis Minnesota. I hope that I will be able to complete my degree here at Platteville in four years and begin farming as a dairy farmer on my father's farm.

Sincerely,
Matthew McCourt

Greetings fellow brothers, my name is Mike North. I am a freshman majoring in Agribusiness. I come from the town of Waterford, WI located approximately thirty miles southwest of Milwaukee. I come from a dairy farm of about fifty milking cows. We also raise approximately eighty crossbred hogs and ten beef cattle. My high school career was filled with active participation in several clubs including FBLA, Forensics, and most importantly FFA. In the FFA, I received many awards on both the state and local level. I served on many committees as well as serving as a national delegate for the state of Wisconsin at the FFA national convention in Kansas City, MO. I have traveled extensively to such places as Washington D.C. and nearly half of the U.S. My hobbies include such things as outdoor recreation, sports, puzzles, mind games, and the like. Through active participation, I hope to become one of the gears that drives AGR to being the best it can be.

Fraternally,
Mike North

Hello my name is Anthony Seebecker, and I am a first year AG-Business major from Mauston, WI. I graduated from Mauston area high school in 1990. Throughout my high school career I was very involved in FFA, received many local and state awards, and I have gone on many trips including the national convention and W.C.P.. I come from a dairy farm and I have shown cattle at the county and state levels. My hobbies include fishing, hunting, and outdoor recreation. I hope to be an asset to Alpha Gamma Rho and look forward to being active in the fraternity.

Fraternally,
Anthony Seebecker

RHOMATE REPORT

The Rho-mate chapter for the Beta Gamma Chapter of Alpha Gamma Rho is set with a new officer team for the year 1993. The President is Angela Liebelt, an agribusiness major from Mindow, WI. Holly Noll, an agribusiness major from Verona, WI, is the new Vice President. Kim Brown is the new Secretary-Treasurer and is from Monroe, WI, and carries a major in Animal Science. Laura Gross is the new Rho-mate Coordinator and resides from Sullivan, WI, and also majors in agribusiness. Tracey Buddhe fills the Ways and Means position and is an Animal Science major from Platteville, WI. This year the Rho-Mates have plans to be involved with the interviewing process for new initiates, and are planning a pizza party for the active chapter. The alumni raffle is also coming so save your money for the Alumni Banquet. The Rho-Mates have a number of gifts that you won't want to miss.

Fraternally,
Angela Liebelt

Winter Retreat 1993

Winter Retreat was held at the Student Center this year on January 15-16. Topics covered this retreat were recruitment improvement, house improvements and repairs, potential advisor prospects, Brotherhood and Rho-Mate programs, fund raisers, new cook search, Home Comming, and the financial situation.

Bill Uecker discussed new techniques for all year and summer recruiting. Tom Brooks led discussions on improving the Brotherhood program and Rho-Mate initiation. Randy Simonson discussed what improvements the house needs and a list of house improvements was compiled and submitted to the Alumni Board. Bob Cooper and Randy Simonson also led discussions on the cook situation. It was recommended by the group to alter the cook's current contract so she would work less hours. They also talked about a possible new cook search by next fall. Mike Grulke and Bill Retza discussed in detail the financial situation and brought forth budgets and lists of ways to cut costs. Retreat closed with Social Betterment and Fraternal moral.

Fraternally,
Dean Strauss

1993 LEADERSHIP SEMINAR

The 1993 annual leadership seminar was held February 19 and 20 in Kansas City, Missouri. A total of nine actives and one alumni represented Beta Gamma at this seminar. The seminar proved to be a very worthwhile activity and all of us came home with new ideas to implement into our chapter.

The weekend included several officer discussion groups where new ideas and responsibilities were brought forward and analyzed. In addition, several different workshops were held on a wide range of topics. Some workshops dealt with recruiting new members, improving personal well being, and discussing the brotherhood program. There was also an excellent presentation on becoming a leader and what a leader should do in an organization.

The seminar provided us with a new look at Alpha Gamma Rho and where it is headed in the future. We also had the opportunity to visit with individuals from other chapters here in the midwest and make some new friends.

Fraternally,
Dean Strauss

Doctor Loberger's Replacement

The AET department has hired Jesse Zimpel to fill the position vacated by Dr. Loberger. Mr. Zimpel attended UW-Platteville in the late 1950's and upon graduation entered the peace corps to work in Peru. Upon his return to Wisconsin he taught vocational agriculture at Lancaster High School for several years. In the 1970's he accepted a position at Southwest Tech. College where he worked with veteran farmers on how to improve their farms and also taught welding. In the early 1980's Mr. Zimpel took a job with the Iowa-Grant Cooperative as manager. He worked there until this semester when he accepted the offer to teach at his alma mater.

PAT MORPHEW RETIRES

After seven years of faithful service to our fraternity, Pat Morphew retired as Beta Gamma's cook. Those of us who had the opportunity to live in the house while Pat was with us will always remember her friendly attitude and culinary creations. In addition to that, her Christmas parties, her trips to Silver Bridge with us, and her "secret" Christmas eggnog will be special memories for all. The chapter held a farewell banquet in her honor, and for the first time she had the opportunity to have the actives make dinner for her (no small miracle). Pat and her husband plan to move to Montana within the next year and build a retirement home. Pat will always be remembered for her contributions to the Beta Gamma Chapter.

NEW COOK

With the retirement of Pat Morphew, the search was on for her replacement. After 3 weeks of looking, 5 people were interviewed. The cook committee chose Dorothy Purdy to be our cook. She is a widow who lives in Belmont. She is originally from Chicago. In the short time that she has been here, Dorothy has received many compliments on her cooking abilities. We believe that Dorothy will be a huge asset to the Beta Gamma chapter.

ALUMNI BANQUET

The dates and activities for this years banquet are as follows:

Fri. Mar. 26	7:30 p.m.-???	The House
Sat. Mar. 27	10:00 a.m.-noon	Annual Meeting (Student Ctr.)
Saturday	noon-1:30	Lunch at AGR House
Saturday afternoon		Leisure time
Saturday	6:30 p.m.	Banquet PLATTEVILLE COUNTRY CLUB

The Founders Day Banquet will begin with a social hour at 6:30 with the meal following at 7:30 sharp. The cost of the meal will be 15.00/person (\$30/couple) prior to Mar. 19 and \$20/person at the door. It would also be much appreciated if you would also send along your \$20 Alumni Dues with your ticket money.

Please send your checks, made out to the AGR Alumni Association to the active chapter in care of Brad Herbrand.

Room accommodations are available until Mar. 13 under ALPHA GAMMA RHO at:

Super 8 Motel (608) 348-8800
Governor Dodge (608) 348-2301

We are sure this is something you won't want to miss!! We look forward to seeing you there.

Fraternally,
Brad Herbrand

AGR CLASSIFIEDS

Hello Fellow AGR Brothers!

Good Day and greetings from room 5 at the house. I would like to introduce myself as Paul Krueger (396), Kurt Krueger's little brother, and will graduate from this fine institution of higher learning in May. I am an animal science major and am currently hunting in the real world. I am animal science major with an emphasis in dairy cattle. I feel that I am a well qualified individual that could fit into many career situations. My work experience with Select Sires as a field communications intern, my experience with Pioneer Dairy Club, Collegiate Dairy Judging Team, SUFAC, Ag Student Council, and most importantly AGR would adapt me well to the Dairy Science field. I would very much appreciate it very much if any of you fellow AGR's could find an opening for me. Please call me at the house if you can be of any assistance.

Greetings Alumni!

Hi, my name is William Demuth and I am graduating this May. My major is Agricultural Business with a Farm Management emphasis. I am currently looking for a job in the agriculture sector of either sales or management. I figured since all you fine alumni are out in the working world, you should have many contacts with employers dealing with agriculture. I am active in many different organizations such as NAMA, Pioneer Yearbook, and Boy Scouts of America. I have had a variety of different jobs dealing with distribution routes to recording of sales. I really appreciate that you took the time to read this article and if you know of any open positions in sales or management please let me know.

Fraternally,
William M. Demuth

Greetings Brothers of Alpha Gamma Rho!

After four years of college and being an active member of AGR, the time has come that I move out into the real world so I can start paying for the educational vacation I've been on the last four years. Here at Platteville I majored in Agricultural Education with an Agribusiness Management Emphasis. In addition to serving as Noble Ruler and Membership Educator, I've also been involved in Alpha Zeta, and NAMA. Currently, I am completing my student teaching experience at Lancaster High School, in the vo ag department, so if you know of any openings in your local school district for an ag teacher, please let me know.

Thanks Again!
Christopher Laue

Hello Alumni:

Hello, my name is Brad Herbrand and I am majoring in Agricultural Engineering and Technology. I am currently looking for an intern for the summer. I am looking for an intern that would give me experience in customer relation skills such as sales, or one that would give me experience in management skills. If there are any good companies out there that would be interested in an intern for the summer and possibly co-op during the fall semester, please let me know.

Fraternally,
Brad Herbrand

Hello AGR Alumni!

My name is Doyle Pokorny and I am graduating this May. Since I have been stationed here in Platteville, I have been majoring in Agricultural Engineering Technology with an emphasis in structures and environment. I have been the Rhomate Coordinator, and have been on several committees while a brother. I am currently looking for a job in the building design of agricultural construction area. With the AGR Alumni network, you might know of an opening in this field. I have really enjoyed my stay here in Platteville. but now it's time to enter the real world and "get a job." Thank you for taking the time to read this article and please let me know if you find any openings.

Fraternally,
Doyle Pokorny
